Agenda:

Cas no.:	Title:
001	Constitution
002	Evaluation of the seminar
003	The Student Council's own quarter-hour
004	The EO Fund
005	Vacant positions

Cas no.:	Title:
006	Miscellaneous

The Student Council's handling of the items:

001 – Constitution

What was discussed:

- No discussion in this case.

What was decided:

- The Student Council Board sets Sverre Leander Paulsen as chair of the meeting. Sverre is elected by acclamation.
- The Student Council Board sets Christian Engen as the secretary. Christian is elected by acclamation.

Comments:

- No comments mentioned in this case.

002 – Evaluation of the seminar

What was discussed:

- A Forms survey will be sent out (for anonymity) – plus oral feedback.
- Tidying and cleaning should have been better organised.
- Broad agreement that the seminar was good and fun – or “fantastic”, in Sverre's words.
- Very good overall, but a lack of rooms to retreat to if you wanted to be alone.
- Better charging facilities.
- The mattresses went flat very quickly.
- Very hot in the dormitory – poor ventilation.
- The bedtime stories read by Sverre were lovely ❤️
- A bit far to travel – somewhere more central, perhaps?
 - BUT, there is a direct bus from Lillestrøm bus terminal.
 - A bit awkward with bags given the journey.
- Nice that there was a shop nearby.
- Very good to see better variety and better cooking skills this year than last.
- Better alternatives to sandwich food – knekkebrød.
- The number of days was perfectly fine, judging by the thumbs-up from the plenary.
- Herman and Milja's debate training video: the video works quite well, better than holding another presentation.
- Some people understood things far better after watching the video – practical and fun.
- A lot to learn from the board's presentations – good that we were taught the information we need.
- Class meetings are led by the student, where the class representative can organise cake Tuesday or share any news from the Student Council.
- The board presentations were apparently "absolutely fantastic".
- Length of the board's personal presentations on the first night – they were a bit drawn out, perhaps?
- Better “rebus” this year than last – better to do it during the day rather than in the evening.
- Good coverage of OD and EO.
- The external guest(s) with Tone Trøen was apparently eye-opening.

- Fantastic make-up and outfit on Herman – and the committee presentation, of course...
- Aurora's voice during the statutes was inspiring.
- Amalie's presentation on student rights was excellent – good answers to questions, etc.
- Snilebakken: great fun, "lost all sense of shame".
- The work programme and the organisational structure were good, super-duper.

003 – The Student Council's own quarter-hour

What was discussed:

- The Student Council will (today) get a quarter of an hour (no, six minutes) where the Student Council goes out and gives praise and criticism to the Student Council board in general. One person chairs the discussion, and EVERYTHING is of course anonymous.
- For example: Are the notices of meetings sent too late, or too early?
- Annnd it will be held.

What was decided:

- Proposed to be held every two months.

Comments:

-

004 – The EO Fund

What was discussed:

- NOK 34,000 has been granted for various purposes (exam-time treats, Christmas workshop, etc.).

What was decided:

-

005 – Vacant positions

What was discussed:

- For those who were at the seminar (and those who weren't): we have adopted a new role on the Student Council board, Events Officer.
- We also need one more member for the election committee.

What was decided:

- Send a message to Sverre Leander Paulsen or Mille Nysæther-Faanes if you'd like to apply for either position.

Comments:

- If you've read this far, thanks for taking your time reading this – writing this in english took me a solid 20 minutes in addition to finalizing the norwegian report.

006 – Miscellaneous

What was discussed:

- Can drama get a new floor in DRA1? One can only hope...
- Herman opens a parcel we've received from OD:
 - We have received a couple of thousand payment forms
 - A newspaper
 - Some cool stickers
- Several assessments causing a packed schedule: students have a right to free time, etc.
- Sverre has had to keep pressing the principal to pass on the message that teachers must stick to the assessment plan.
- Possibility of getting a clock in every practice room.
- What do you do if you're absent on OD Day?
 - Completely normal absence rules apply that day.
- The innermost toilet on the top floor of the D building is loose – it has come away at the top.
- The toilet in the C building still smells bad... (there was a sewage leak at one point).
- A piano is out of tune – the one in the chamber hall (Kammersal)?
- Panteordning – only 4 have been ordered.

The meeting is adjourned at 12:16

Things to take up with the class:

- Just inform the class about the positions if there is any interest.
